SKILLS

- Data Visualization
- Tableau
- MYSQL
- Tableau Server
- Python
- Data Management
- Excel
- SQL Server
- Big Query
- Team work & collaboration
- Web Analytics
- Problem Solving
- Creativity
- WordPress
- JavaScript
- HTML
- Adobe Photoshop

INTERESTS

- Mathematics
- Trekking
- Physical Fitness

EDUCATION

B.Tech
JSS Academy of Technical Education, Noida
2013 - 2017   *67.7%*

PROJECTS

1. Dashboard Design
- Created a map using geographical hierarchy to represent data exclusively on the basic of color or size.
- Developed scatter plot to represent a granularity of data, applied filter to multiple worksheet, create data bin, calculated field, add labels, and formatting to visualize level of granularity of data.
- Used parameters, sets, filters, highlighter, and action function to make dashboard robust & dynamic.
- Used a data interpreter and refine data to make data understandable for tableau.

2.Database Management and Query
- Good understanding of structured query language(SQL, SQL server, oracle) .
- Designed a database Schema based on a requirement of database.
- Created a database and tables to store data using a plethora of SQL statement like default, auto increment, constraint etc.
- Extracted data from different data source for query a specific data from source and store a procedure to use this data for another query or insert store procedure to create a new table for analyze.
